## **Report:**

According to my survey all of them, have permanent house, toilets, LPG gas connection, Arogya Sri cards, mobile phones and A.P. fiber net facilities. Only 8 members are watching agriculture related channels rest of people were not interested towards this type of channels so we aware them towards agriculture related channels by explaining importance of this channels. 34 members have own vehicles. All they have agriculture fields but only few acres (1-8 only), moreover majority of people have well in health.

By the data we found that, no one is using any kind of bio fertilizers for normal and as well as commercial crops so it is noticed that need of awareness on bio fertilizers and then we conducted awareness on it. No one said their survey numbers to note in our log book, they have some doubts we may misuse it. Even though they knew the government do soil test on free of cost, they didn't do it because lack of knowledge on micro and macro nutrients in soil. We explained importance of micro and macro nutrients in the soil and how they help to increase yield moreover to reduce unnecessary use of chemical fertilizers.

# Department of Horticulture

**SKR&SKR GOVERNMENT DEGREE COLLEGE FOR WOMEN(A),KADAPA**

## **Department of Horticulture**

Community service project

Topic Name : House Hold Botanical Project **MENTOR:**

Y.Naga Rathnamma

**Submitted by:** S.Tejeswini (1 BSc.BCH)

HT.NO : 24410316021

(2021-2022)

## **CERTIFICATE**

This is to certify that the project entitled  
" House Hold Botanical survey"  
is the bonafide project of  
**S.Tejeswini 1 BSc.(BCH)**  
is done under supervision of  
**Y.Naga Rathnamma**  
for the csp in the Department of Botany.

## Report of Household Botanical Survey Project

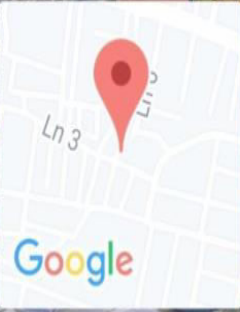

- I collected the information about the project in my area in SBI colony near built up circle in Kadapa.
- While doing survey i observed all the plant's, trees, etc in my area.
- In some houses there are some medicinal plants like alovera, thulasi, Neem etc ., I observed.
- In some other houses there are vegetable and fruits plants like coriander,tomato, coconut, tamarind , guava, mango.....
- In some other houses there flower plants like Jasmine, marigold, crosandra .
- In some houses there is a backyard and also they developing kitchen garden in house of backyard space.
- Now a day's mostly people like growing plants in their house's terrace garden , roof garden, they gives mostly fresh air while they growing the plants in their house's.
- Some people are not growing the plants in their house's because lack of spaces, lack of awareness in their house's .
- And I said that person's who are not growing the plants , please grow up the plants because to our upcoming generations to take fresh air and also to stop the pollution.

### Conclusion :

- The objective of House Hold Botanical AsuRVEY is **to explore the plant resources of the country and to identify the plant species with economic values.**
- please grow the plants ,gardens etc
- And aslo save the trees, save the soil, save the water it was useful to our upcoming generations.

**Ist Biotech- 2021-22**

**SKR & SKR Govt. College Women (A), Kadapa**

## **Implementation of National Immunization Schedule 2020-21 in the local ward of Kadapa**

**Principal – Dr.P. Subbalakshumma**

**Name of the Mentor – Dr. Sachi devi.P**

LECTURER IN ZOOLOGY  
SKR & SKR GOVT. COLLEGE FOR WOMEN  
KADAPA - 516 001

**Community awareness programmes conducted w.r.t the problems and their Outcomes:**

In order to create awareness among the public about the Govt. Immunisation schedule and to build a healthy society pamphlets were distributed to each house of the ward.

## ▣ **Conclusions/ recommendations:**

Based on the survey conducted and the data obtained in the local 30<sup>th</sup> ward in Kadapa. I conclude that most of the people are educated and are aware of the importance of immunization. But, almost all the their children have received only BCG, Hepatitis OPV and TT vaccines. Therefore, government has to Create awareness among the public about the remaining vaccines like IPV, Measles, DPT and Rota virus through mass communication media, by Telecasting health awareness programmes. So that, our infants and children are better immunized against infections and diseases.

### VI. Photo Gallery:

#### IV. Results and Discussion:

As per the survey report most of the people are unaware of processed foods and their risk of health problems. In most of the families, people of the age above 35 years are interested in consuming self-preparatory foods. Most of the teenagers and youth are interested in taking instant foods and readymade food items. Most of the families trust packed foods based on the brand, quality of the product, expiry date, MRP and shelf life. Only limited people are aware of FPO certification and consumers act.

#### V. Conclusion:

- The nutrient value of food is almost always by the kind of processing it undergoes.
- The water-soluble vitamins are the most vulnerable to processing and cooking.
- Careful cooking and storage will help retain the nutrients in your food.
- Excessive consumption of ultra-processed foods can result in weight gain short term and diet-related disease in the long term.
- The principal role of food packaging are to protect food products from outside influences and damage, to contain the food and to provide consumers with ingredient and nutritional information.
- The role of food packaging is to contain food in a cost-effective way that satisfies industry requirements and consumer desires, maintains food safety and minimizes environmental impact.

KADAPA**

## CONCLUSION AND RECOMMENDATIONS

Personal hygiene is a concept that is commonly used in medical and public health practices. It is also widely practised at the individual level and at home. It involves maintaining the cleanliness of our body and clothes. Everybody has their own habits and standards that they have been taught or that they have learned from others.

The knowledge and practice of personal hygiene are vital in all our everyday activities. So we suggested them to follow few hygiene activities daily or frequently,

1. About few hygiene things like Oral hygiene, because is the area of the body to collecting bacteria and generating infections. Daily brushing twice the teeth is must.
2. Washing of face mainly Eyes, Ears, Hair and Foot hygiene are important in our daily activities.
3. The next hygiene activity is washing cloths frequently. The fingers may get contaminated with one's own faeces, either directly or indirectly. So washing of hands is compulsory to avoid from diseases.

Important factors that contribute to good health are:

1. Balanced Diet- To maintain a healthy life, one should take a proper well-balanced

diet with plenty of water.

2. **Personal Hygiene-** A person should live in a clean environment and must follow good personal hygiene. There should be proper disposal of wastes. Clean surroundings prevent the spread of diseases.
3. **Regular Exercise-** Along with good food and hygiene exercise is also very important in maintaining good health. Regular exercise and good sleep help a person to remain fit, stress-free, and active.

**Hygiene :**The practices that we follow in our day-to-day lives to maintain good health are known as hygiene. This includes: Personal hygiene and Community hygiene.

**Personal Hygiene :** The following practices should be followed every day to remain Healthy,

1. Washing hands before and after eating
2. Regular toilet habits
3. Cleaning teeth
4. Bathing on a regular basis
5. Wearing clean and comfortable clothes
6. Drinking clean water
7. Keeping house clean and insect free
8. Cooking in clean utensils

**Community Hygiene :** The environment in which we live plays a very important role in keeping us healthy. The practices to keep our surroundings clean should include,

1. Proper disposal of household wastes
2. Cleaning of roads and streets
3. Keeping house clean
4. Covering dustbins
5. Spraying insecticides at regular intervals to ward off insects.

The community survey is an essential part of our society and without their enhancement of sanitation and hygiene practices, the complete health status of the entire society will be vulnerable.

#### **4. RESULTS AND DISCUSSION**

100% of the people having bank accounts. Their average financial status Rs.25000/-.There are 31 people having ATM cards. 77% of the people linked their Aadhar card to their bank accounts. 40 families out of 50 families having smart phones. They are using mobile app like phone pay, G-pay etc. 100% families satisfied with online banking system.

#### **5. CONCLUSIONS:**

From all of this we have learnt that information technology has empowered customers and businesses with information needed to make better investment decision. At the same time , technology is allowing banks to offer new products.

## CONCLUSION

The conclusion that we got through the survey that was did in the area kothapeta (v);c.k dinne of our mandal in kadapa that there is good of awareness of the performing of arts and most of the peoples are stepping back wards to share there feelings due to the parents. We can create awareness over there with many process. For example by conducting |

1. Conduct awareness programmes
2. Conduct camps.. etc.

By doing above activities we can create awareness among the people

And they to come for ward as they believe and exposure of students.

In involves their determination talent and passion which can transfer into a successful career.

Community Service Project Submitted in Partial Fulfillment for the Degree in  
Bachelor of Arts Awarded by Yogi Vemana University, Kadapa, A.P.

**SKR & SKR GOVT.COLLEGE FOR WOMEN (A), KADAPA**

**MAY/JUNE 2022**

### D. COMMUNITY EXIT REPORT

We prepared, conducted and went to the residencies of the Maruthi Nagar, Kadapa and asked them to fill the forms. As a result of using social media, the youth are learning many new things. As a result, there are many benefits to upgrading yourself. Moreover, many young boys and girls have mental problems due to study or work pressure. This social media is beneficial for their relaxation. They can talk to friends here. As a result, their mental fatigue decreases.

Social media has facilitated a medium to develop discussion groups covering the subject matter in class; hence, it is a good platform for enhancing the performance of Youth. The discussion groups facilitate consultation when students are handling their assignments. Some of the discussion groups include tutors who can help students to grasp the subject matter delivered in class.

Additionally, social media has also led to more youth taking an active role in politics. Social media platforms facilitate direct access to political leaders, which has led to more leaders using the avenue to educate their followers Youth can now participate in lobbying activities, as well as influencing the political climate by voting in large numbers.

Moreover, youth are becoming more tolerant of diversity, following the ability to communicate with people from different parts of the world in various interest groups on social media. The enhancement of cultural competence is quite a desirable effect on social media.

The networks developed through interaction processes on social media also enhance access to business opportunities for youth. Young people are developing small businesses and selling goods and services through social media.
